Dear Jim,

What to me is the latest assassination craziness is a long article in the Washington Post by the La Fontaines. They say that Oswald was a snitch on an illegal arms deal and that they have a book coming out this winter on it. "Oswald Talked."

I wrote a lengthy article debunking it for the record for history and sent a copy to the Post. I've heard nothing from it.

Buck Revell wrote a letter they did publish. He addressed part of their argument, that Oswald was in a cell with others and heard about the gun deal, by saying that Oswald was in a cell by himself, F-2 I think. They wrote the Post and said that was for the first day only.

I would like to be able to prove that he was always in a cell by himself, if that is possible. It is what I believe the police would have done under those circumstances.

Which is why I write.

Do you know or can you without much trouble get the records for me so I can put that mythology where it belongs? Or any proof?

If you can I'll appreciate it very much and to a degree we can lay that one to rest. I think that if I were to write the Post a letter limited to the fact they would print it.

Thanks and our best,

Harold
